# Logistics

## How to get to Wageningen

Wageningen can be reached easily by train from Amsterdam Schiphol airport. You will find the railway station opposite the Arrivals Hall by following the sign *To the trains*. In the Arrivals Hall you can buy a single second class train ticket to EDE-WAGENINGEN. Please bear in mind that you must purchase your ticket before boarding the train, there are slot machines for this purpose at the station. You cannot buy your ticket on the train.

Trains towards EDE-WAGENINGEN usually depart from platform 1 or 2 for which you need to go down the escalator. Direct trains leave every half hour at 12:00, 12:30, 13:00, etc. An additional train leaves at 11:47, 12:17, 12:47 etc. but you need to change trains in Utrecht station. The journey from Schiphol airport to EDE-WAGENINGEN takes about 1 hour.

Alternatively, you can arrive from Dusseldorf airport in Germany. Taking a train from Dusseldorf airport to EDE-WAGENINGEN is also possible, but you need to change trains 2 or 3 times. Let me know if you want to take this route in order to get you a detailed train table.

We will pick you up from the station at EDE-WAGENINGEN to get to the hotel. Please give me a phone call if you know your arrival time at EDE-WAGENINGEN.

**Please be aware of thieves and pickpockets in crowded places such as airports, railway stations etc., especially in big cities like AMSTERDAM and UTRECHT. We advise you to watch your luggage at all times. Valuables such as money, passports, tickets, and laptops should be kept in a safe place.**

## Hotel

A block reservation has been made at the hotel *Hof van Wageningen* (<http://www.hofvanwageningen.nl/>) in Wageningen. This is a basic hotel, but the choices are slim for a small town like Wageningen and the hotel is conveniently located near the city center.

Please let me know your exact arrival and departure dates for the hotel reservation.

## Weather

In the Netherlands the average temperature during the month of January is 2.7° Celsius (36.68° Fahrenheit) but usually ranges between -10 to 10° Celsius. Particularly, if the temperature in January is relatively high this is accompanied with a lot of rain and wind. Low temperature usually are accompanied with nice weather (cold but sunny) and a gentle breeze coming from the east.

## Local transportation

We will take care of local transportation to get you from the hotel to the institute and back.
